WHY CHAMPION GYM SHOES?

Studies have shown that fitness and other sports involve a whole host of different movements. Movements such as twists, skaters, jumps and squats all come into play. Unlike running, which uses mainly linear movements, fitness activities involve hardly any linear movements.

CHAMPION GYM SHOES are all designed to help you perform these movements without the risk of getting injured.

WHY IS IT IMPORTANT TO TRAIN WITH THE RIGHT SHOES?

Studies have shown that fitness injuries are caused by inappropriate footwear and that people doing fitness who don't use the right shoes have a higher risk of injury than people who wear specific fitness shoes. Most of the people who get injured doing fitness wear generic running shoes. This all shows the importance of creating shoes that are designed especially for fitness activities.
